CARRIER SPECIFICATIONS

GENERAL DIMENSIONS

A	Width of Cab	11'9"	L	Overall Length of Carrier	47'
B	Height to Top of Cab	13'5"	M	Overall Width of Carrier	14'
C	Tail Swing	17'7"	N	Centerline of Carrier to Centerline of Outrigger	11'6"
D	Centerline of Rotation to Centerline of Boom Foot	5'0-3/4"	Q	Top of Mounting Plate to Ground	5'3"
E	Ground to Centerline of Boom Foot	7'7-3/4"	R	Top of Carrier Cab to Ground	7'7"
F	Height Over A-Frame (Lowered)	13'6-1/2"	T	Centerline Front Outrigger to Center Line Rear Outrigger	22'7"
F'	Height Over A-Frame (Raised)	29'3"	U	Rear of Counterweight to Front of Cab	25'9"
G	Ground to Bottom of Counterweight	5'7"	V	Centerline of Rear Outrigger to End of Carrier	2'3"
H	Distance Between Axles	5'4"	X	Bottom of Machinery Deck to Top of Cab	7'6-1/2"
J	Centerline of Rotation to Centerline of Rear Bogie	2'7-1/4"		Turning Radius	57'
J	Wheel Base	23'2-1/4"		Clearance Under Raised Outrigger Float	4-1/2"
K	Centerline Rear Bogie to Centerline Rear Outrigger	9'10"		Clearance Under Equalizer Beam	11"

DO NOT WELD OR BURN ON TUBULAR BOOM

Load ratings do not exceed 85% of tipping with crane standing level on firm, uniformly supporting surface. Safe loads depend on ground conditions, boom length, radius of operation, condition and inflation (100 psi) of tires, and proper handling, all of which must be taken into consideration by user.

"Radius in Feet" is the horizontal distance at ground level from center pin to a vertical line through the center of gravity of the suspended load. Blocks, slings, buckets and other load-carrying devices are considered part of the load.

Ratings marked (*) require retractable A-frame fully raised.

Ratings marked (†) are based on strength not stability.

Ratings indicated in *italics* represent boom positions which *without load*, provide less than standard backward stability.

For loads up to 74,300 lbs use 2-part maximum reeving without hanger block. Reduce ratings 800 lbs when using optional two-sheave hanger block (for up to 6-part line).

With Outriggers Extended and Set Crane Will Self-Erect:
