

RC80 || RAIL CART

High Capacity. High Efficiency.

The highest-capacity rail cart on the market lets you take the load with you.

Whether you're laying new rails or replacing worn sections of track, the **RC80 Rail Cart** helps you get the job done faster.

With an 80,000 lb. capacity, the **RC80** can hold an impressive number of rail sections. Hitch it to the back of a crane and take a full day's load with you. As you move down the track, simply swing the boom around, pick up a rail from the cart, and lay it down in front of you.

No more shuttling back and forth along the track, plucking rails one at a time from a stack piled high. The **RC80** lets you take the load with you, saving you time and money!

The 28 ft. RC80 is the largest rail cart on the market.

- Haul more rail.
- Carry more equipment.
- Get the job done faster.
