### **TRANSMISSION**

For unbeatable drive power in all conditions, the JCB Syncro Shuttle combines a 4-speed, fully synchromesh gearbox with integral torque converter and electrically operated reversing shuttle for smooth gear changes on the move and fast cycle times. Column mounted electric switch effortlessly controls machine direction changes allowing operator to keep hands on steering wheel. Automotive style pedal layout and conventional H-pattern gear lever add to ease of operation. Travel speed 29.0km/h (18mph). Front drive axle: JCB epicycle hub reduction drive axle with Max-Trac torque proportioning differentials. Rear steer axles: JCB manufacture with hydrostatic power steering. Steer shock valve as standard. 4WD versions with epicyclic hub reduction and Max-Trac torque proportioning differentials.

## **BRAKES**

Service brakes: Hydraulic servo assisted, self-adjusting, oil-immersed in-board multi-disc type in front axle.

Parking brake: Hand operated disc brake on output of gearbox.

### **MASTS AND CARRIAGES**

Clearview masts manufactured from channel and I-section steel. Heavy duty mast chains. Guide roller bearings are sealed for life. Industrial class III carriage as standard for 60" width available for all masts and 84" on the 5.5 metre mast. All carriages have side thrust rollers. Adjustable right hand tilt ram. Floating fork carriage optional.

### **HYDRAULICS**

Single gear pump with steer priority valve, suction strainer and filter. Operating system pressure: 221 bar (3200psi), flow 55 ltr/min (12.5gal/min). Pipe burst protection on mast hydraulics.

# **AUTOMATIC DERATION**

Deration valve: 5.5m and 6.70m masts are fitted with a deration valve which automatically reduces lift capacity above 4.5m for safety and stability.
