RIGANTE TECNOLOGIE di M. D.

The "RIGANTE" diesel Mobile Cranes from 3 to 15 ton.

- RIGANTE TELESCOPIC MOBILE CRANES -

where maneuverability and agility is required in to small work area with to big load.

We produce also Electric Mobile Cranes

RIGANTE TECNOLOGIE di M.D. – Address : Via G.Bovio 334 I- 76011 BISCEGLIE (BA) ITALY

RIGANTE TECNOLOGIE di M. D.

DIESEL MOBILE CRANE PRESENTATION

The **RIGANTE** Co. is a Pick-n Carry Mobile Cranes manufacturer company since 1992.

These Cranes are built to lift from 3 to 15 Ton., and have been engineered to solve the most difficult problems relating to outside storages and narrow isles warehousing.

The RIGANTE CRANES are built strong :

- Equipped with a diesel engine.
- Pollution-free, quiet and user friendly.
- Economical, easy and safe to operate.

These Cranes are used mostly in fields such as :

- Industrial and commercial construction,
- Ship-yards, glass factories, Bulk material, handling,
- Industrial assembling and maintenance.

and in many sectors where maneuverability is required in to small work area with to big load.

For further information about Technical characteristics, new and used promotional sales and financing, we will be pleased to assist you at our best.

Hoping in hearing from you at your earliest convenience,
Yours Truly.

RIGANTE TECNOLOGIE di M. D.

Model Type GR30-D

The RIGANTE Mobile Crane GR30-D max. 3,000 Kg., specification :

- Equipped with one extending hydraulic arm and a manual arm, total utility run of about 2,90 mt.
- 22 Kw. Diesel Engine water cooling LOMBARDINI made, with an electric starter unit.
- Power steering wheel system mounted on a rotating platform.
- An Hydraulic rear wheel drive and a reducer unit system.
- The emergency anterior hydraulic brakes is located anterior wheels.

Model Type GR40-D

The RIGANTE Mobile Crane GR40-D max. 4.000 Kg., specification :

- Equipped with one extending hydraulic arm and a manual arm, total utility run of about 3,00 mt.
- 24,6 Kw. Diesel Engine water cooling LOMBARDINI made, with an electric starter unit.
- Power steering wheel system mounted on a rotating platform.
- An Hydraulic rear wheel drive and a reducer unit system.
- The emergency anterior hydraulic brakes is located anterior wheels.
